## **COURSE DURATION**

05 Days

## **DISCIPLINE**

Finance & Account

## **COURSE INTRODUCTION**

This intensive 5-day program has been carefully designed to empower non-finance professionals with the knowledge and skills needed to navigate the intricacies of budgeting and forecasting in a corporate setting.

In today's dynamic business environment, the ability to understand and contribute to financial planning processes is crucial for professionals across all departments. This course is tailored specifically for individuals who may not have a finance background but play a pivotal role in decision-making within their organizations.

## **COURSE OBJECTIVE**

**Upon successful completion of this course, the delegates will be able to:**

- ✓ Develop Financial Literacy: Gain a solid understanding of financial statements, key metrics, and the fundamentals of budgeting to make informed business decisions.

- ✓ **Advanced Budgeting Techniques:** Explore advanced budgeting methods such as zero-based budgeting, activity-based budgeting, and rolling forecasts to enhance your budgeting skills.
- ✓ **Forecasting Mastery:** Learn various forecasting methods and tools, and apply them to predict future financial trends and make proactive business decisions.
- ✓ **Performance Measurement:** Understand how to measure and analyze performance through the effective use of key performance indicators (KPIs) and variance analysis.
- ✓ **Communication and Decision-Making:** Acquire the ability to communicate financial information to non-finance professionals, create impactful visualizations, and use financial data for strategic decision-making.

### **COURSE AUDIENCE**

- Professionals from non-finance backgrounds
- Managers and team leaders involved in decision-making
- Entrepreneurs and business owners seeking financial insights
- Anyone eager to enhance their financial acumen and contribute more effectively to their organization's success
