Leadership & Management

COURSE INTRODUCTION

In an ever-evolving business landscape, the ability to identify, assess, and mitigate risks is paramount to an organization's success. Over the five days training, the participants will embark on a comprehensive journey to explore the fundamentals of risk management and equip with the protocols and strategies necessary to navigate uncertainties effectively.

COURSE OBJECTIVE

Upon successful completion of this course, the delegates will be able to:

- ✓ Foundations of Risk Management: Understand the core principles, historical context, and evolution of risk management, and recognize its significance in contemporary business operations.

✓ Risk Identification and Assessment: Develop proficiency in identifying and categorizing risks, employing qualitative and quantitative assessment techniques, and creating comprehensive risk maps.

✓ Risk Mitigation Strategies: Explore a spectrum of risk mitigation strategies, from risk transfer and avoidance to reduction and acceptance, and learn to design effective controls and safeguards.

✓ Monitoring and Reporting Protocols: Establish protocols for continuous risk monitoring, implement early warning systems, and hone the skills to communicate risks effectively to stakeholders.

✓ Risk Culture and Continuous Improvement: Foster a positive risk culture within your organization, instill risk ownership at all levels, and embrace a mindset of continuous improvement through learning from incidents.

COURSE AUDIENCE

✓ Risk Managers and Analysts
✓ Compliance Officers
✓ Finance and Operations Professionals
✓ Project Managers
✓ Business Leaders and Decision-makers

COURSE CERTIFICATE

TRAINIT ACADEMY will award an internationally recognized certificate(s) for each delegate on completion of training.

COURSE FEES

£5,500 per Delegate. This rate includes participant's manual, Hand-Outs, buffet lunch, coffee/tea on arrival, morning & afternoon of each day.

COURSE METHODOLOGY

The training course will be highly participatory and the course leader will present, guide and facilitate learning, using a range of methods including formal presentation, discussions, sector-specific case studies and exercises. Above all, the course leader will make extensive use of real-life case examples in which he has been personally involved. You will also be encouraged to raise your own questions and to share in the development of the right answers using your own analysis and experiences. Tests of multiple-choice type will be made available on daily basis to examine the effectiveness of delivering the course.

- ▪ 30% Lectures
- ▪ 30% Workshops and work presentation

- 20% Case studies & Practical Exercises
- 10% Role Play
- 10% Videos, Software or Simulators (as applicable) & General Discussions
